<b>Resources Required:</b>	<p><b><u>See, Judge, Act Method</u></b></p> <p>The see, judge, act method of discernment enables young people to apply the core principles of Catholic Social Teaching to the social issues of their time. The method was developed by Cardinal Joseph Cardijn and endorsed by Pope St John XXIII in his 1961 encyclical <i>Mater et Magistra</i>, where he wrote,</p>

236. There are three stages which should normally be followed in the reduction of social principles into practice. First, one reviews the concrete situation; secondly, one forms a judgment on it in the light of these same principles; thirdly, one decides what in the circumstances can and should be done to implement these principles. These are the three stages that are usually expressed in the three terms: look, judge, act.

### The See, Judge, Act method

For young Australians this means:

1. to **See** the social justice issues that are impacting on our society, to understand their causes and to identify their consequences, especially for the poor and the vulnerable;
2. to **Judge** (or discern) the fairness and justice of the situation and its consistency with Gospel values and the principles of Catholic Social Teaching; and
3. to **Act** in a way that draws upon the skills and capacities of the participants to bring about changes that will eliminate or alleviate the injustice.

This process involves listening to the Gospel stories to see how Jesus and his followers responded to the social issues of their time, as well as engaging with the key documents of Catholic Social Teaching which often provide guide posts for current social issues, and it also involves a living spirituality where young people listen carefully to how the Spirit is calling them to respond in the immediacy of their own lives.
